CAREER SUMMARY:

Passionate **Backend Engineer, AI Research And Development with over 2 years of experience** specializing in building scalable backend systems using **Python, Django, and Machine Learning (ML)**. Skilled in frontend development with expertise in **Generative AI, Large Language Models (LLMs), and Natural Language Processing (NLP)** for deriving data-driven insights. Demonstrated proficiency in **AI Chatbot Optimization, Prompt Engineering, and enhancing chatbot performance**. Experienced in implementing **Agentic AI Flow to optimize autonomous decision-making processes and drive system efficiency**.

TECHNICAL SKILLS:

- **Frontend:** HTML, CSS, JavaScript, React JS, Tailwind CSS, Bootstrap
- **Backend:** Python, Django, Fast API
- **Databases:** Microsoft SQL
- **Development Tools:** VS Code, Colab, Cursor
- **Version Control:** Git, GitHub, Repository Management
- **AI & ML:** LLM Prompt Engineering, AI Chatbot Development, Model Evaluation, RAG Architecture, Data Preprocessing, Data Visualization, Agent AI Flow

WORK EXPERIENCE:

Freelance Backend Engineer | AI Research and Development – Neurozai

Remote | Dec 2024 – Feb 2025

- Contributed to the **Medozai Project**, an IVR application for booking medical appointments and providing medical guidance using AI agents, increasing operational efficiency by 30%.
- Created an **LLM Evaluation Tool** to assess AI-generated responses, improving response accuracy by 25%.
- Developed **AI Scribe in Streamlit**, converting .wav audio files into structured SOAP notes, reducing manual documentation time by 40%.
- Conducted **Prompt Tuning** to enhance LLM responses, achieving a 35% improvement in natural language flow and professionalism.
- Developed a **Restaurant Chatbot**, increasing customer interaction efficiency by 20% through AI-driven responses.
- Implemented **Streaming LLM responses, Noise Reduction, and WebRTC VAD**, achieving a 30% improvement in speech processing accuracy.
- Built **Dynamic Tool Invocation**, enhancing AI functionalities and increasing tool utilization by 15%.

Trainee Consultant – Enterprise Softlabs Pvt. Limited

Onsite – Hyderabad, India | June 2023 – Oct 2024

- Worked on **Txenial**, a WMS AI platform integrating ML models to streamline warehouse operations, enabling predictive analysis and efficient task management.
- Developed **NL2SQL modules** for warehouse managers, automating complex queries and improving data access speed by 30%.
- Engineered **AI-powered Chatbot** to provide application assistance, reducing customer response time by 35% and enhancing user experience.

- Designed a **User-Friendly Application Interface**, resulting in a 20% increase in user engagement and satisfaction.
- Integrated ML models for **inventory management**, optimizing stock predictions and demand forecasting accuracy by 25%.
- Leveraged **MS SQL** for data storage and retrieval, increasing data query performance by 30%.
- Collaborated with cross-functional teams to align development efforts with project objectives, achieving a 20% increase in overall project efficiency.

PROJECTS:

Txenia – WMS AI Platform:

- A comprehensive **Warehouse Management System (WMS)** platform that **integrates ML models** to optimize **warehouse operations, manage inventory, and enable predictive analysis**.
- Designed for users to experience the application's performance through modules like **AI-powered Chatbot, NL2SQL for warehouse managers, and a user-friendly interface**.

Medozai – IVR Medical Assistance Platform:

- An **AI-driven IVR system** for booking medical appointments and providing guidance on medical aspects, **utilizing AI agents for the overall process**.
- Not limited to appointments, the platform also offers patient guidance and **support through AI-powered tools and functionalities**.

KEY STRENGTHS:

- Strong problem-solving and analytical skills.
- Proven ability to optimize AI & ML solutions.
- Effective cross-functional collaboration.
- Passion for **AI-driven innovations**.

CERTIFICATIONS:

- HTML, CSS, JS, Node.js, Python, MS SQL, Gen AI, AI Agents, Prompt Engineering.

EDUCATION:

BSC, Computer Science (MPCS)

VSM College of Engineering (AKNU Affiliated).

Graduated Sep 2022

7.5 CGPA
