CAREER SUMMARY:

Software Developer with **2+ years of experience** building **scalable backend systems** using **Python, AI, and MS SQL**. Skilled in developing **data-driven applications** and integrating **AI technologies** to **streamline workflows** and **boost efficiency**. Hands-on expertise in **Machine Learning (ML)**, **Generative AI**, **Large Language Models (LLMs)**, and **Natural Language Processing (NLP)** for **intelligent automation** and **actionable insights**. Strong in **Prompt Engineering**, **chatbot optimization**, and **Agentic AI applications**, including **Agentic IVR solutions**, to enable **autonomous decision-making** and **enhance system performance**.

TECHNICAL SKILLS:

- **Backend:** Python, Django, Fast API, REST API
- **Databases:** MS SQL
- **AI & Machine Learning:** Generative AI, Prompt Engineering, Natural Language Processing (NLP), Large Language Model (LLM) Evaluation, Retrieval- Augmented Generation (RAG) Architecture, AI Chatbot Development, Agentic AI Workflows, LangChain ecosystem (LangSmith, LangGraph), OpenAI, Hugging Face, Scikit-learn, Pandas, Numpy, Crew AI, MCP, Transformers
- **Development Tools:** VS Code, Colab, Cursor, Postman (API Testing), Streamlit
- **Version Control:** Git, GitHub, Repository Management

WORK EXPERIENCE:

Prompt Engineer – CBRE (via TechStar Groups)

Full-Time – Hyderabad, India | Aug 2025 – Present

Currently working on a **commercial real estate AI project for CBRE**, focused on automating lease abstraction through **AI-driven workflows**.

Key Contributions:

- Designed and optimized **LLM-based prompts** to extract key lease fields like leased area, lease commencement, and rental terms, **achieving 95% field accuracy**.
- Created a **skeleton YAML prompt generator**, reducing manual effort by 30% and development time by 40%.
- Validated prompt performance using **Postman and large documents**; improved accuracy through iterative **tuning and edge case analysis**.
- Deployed prompts for large-scale automation and accuracy tracking.
- Contributed to **backend enhancements, automation scripts, NL2SQL** and workflow optimization using Python.

Impact: Improved **data accuracy**, **reduced manual work**, and **streamlined document** processing across the enterprise AI pipeline.

Freelance – Backend Development, AI R&D

Dec 2024 – Mar 2025

Key Contributions:

- Developed an **LLM Evaluation Tool**, boosting response accuracy by 25%
- Built **AI Scribe** using Streamlit to convert .wav files into **SOAP notes**, reducing documentation time by 40%
- Enhanced LLM responses with **Prompt Tuning** for a 35% improvement in conversational quality
- Implemented **Dynamic Tool Invocation** and **AI Agent flows**, increasing automation capability by 15%
- Designed a **Restaurant Chatbot** with a 20% gain in customer interaction efficiency
- Integrated **Streaming LLM, WebRTC VAD, and noise reduction** for 30% improved voice processing

Consultant – Enterprise Softlabs Pvt. Limited

Onsite – Hyderabad, India | June 2023 – Nov 2024

Key Contributions:

- Developed **NL2SQL** modules to translate **natural language queries**, improving **data** access speed by 30%
- Built an **AI chatbot** that reduced customer response time by 35%
- Integrated ML models for **inventory prediction**, increasing **forecasting** accuracy by 25%
- Designed a user interface that enhanced user engagement by 20%
- Optimized **SQL queries** and **storage processes**, resulting in 30% better performance
- Collaborated across departments, improving project execution efficiency by 20%

PROJECTS:

Txenia – WMS AI Platform:

- A **comprehensive WMS platform** that integrates **Machine Learning models** to **optimize warehouse operations**, **manage inventory**, and enable **predictive analysis**. Designed with **AI-powered chatbot**, **NL2SQL for warehouse managers**, and a **user-friendly interface** to deliver an intelligent and seamless experience.
- **Tools & Skills:** Python, MS SQL, NLP, Report Builder, AI, Machine Learning, Generative AI, LLM, Prompt Engineering, Streamlit, LangChain, Hugging Face, Open AI API.

Medozai – IVR Medical Assistance Platform:

- An **AI-driven IVR system** designed for **booking medical appointments** and providing **patient guidance** using **AI agents**. Beyond scheduling, the platform offers **medical assistance** and **support** through **AI-powered tools and functionalities**, ensuring a seamless and intelligent user experience.
- **Tools & Skills:** Python, AI, NLP, Generative AI, LLM, Prompt Engineering, Streamlit, Langchain, Hugging Face, Open AI API, LLM Evaluation, WebRTC VAD.

Lease Abstraction (LAE) – Commercial Real Estate AI Platform:

- An **AI-powered solution** that **automates lease abstraction** and **extracts critical fields** from commercial real estate documents using **LLM-based workflows**. Implemented **Prompt Engineering** and **Agentic AI techniques** with **NL2SQL for dynamic query generation**, improving **accuracy** and reducing **manual effort**. Developed a **skeleton YAML prompt generator for field-level instructions**, enabling **faster prompt creation** and **scalability**. Validated prompts on **large document datasets** using **Postman**, ensuring **high accuracy** and **reliability** before deployment.
- **Tools & Skills:** Python, MS SQL, AI, Generative AI, LLM, Prompt Engineering, Streamlit, LangChain, Open AI API, LLM Evaluation, Postman.

KEY STRENGTHS:

- **Strong problem-solving and analytical skills** with a focus on delivering efficient solutions.
- **Expertise in AI technologies** including **Machine Learning (ML)**, **Generative AI**, **LLMs**, and **NLP**.
- **Prompt Engineering proficiency** for designing and optimizing **LLM-based workflows**.
- **Agentic AI implementation** for autonomous decision-making and workflow automation.

CERTIFICATIONS:

- **Full Stack Web Development:** HTML, CSS, JS, Python, MySQL, Node.js – *Nxtwave (2022)*
- **AI & Machine Learning:** Prompt Engineering, Generative AI, LLMs, AI Agents – *Simplilearn, Google, Microsoft (2025)*

EDUCATION:

BSC, Computer Science (MPCS)

VSM College of Engineering (AKNU Affiliated).

Graduated Sep 2022

7.5 CGPA
